

## PRESS RELEASE

For immediate release

### Oceania Baths Releases the Infinité Stainless Steel Shower Base

Thetford Mines QC, Thursday, Sept 24, 2010 — Oceania is headed into the future with a completely new product where none has existed before! With the focus on Cutting Edge Product, Oceania Baths designs, manufactures and assembles all its products in Quebec, Canada. While always on the forefront of design and engineering in Soaker and Therapeutic Baths, Oceania is now paving the way for new technology and designs in the rapidly growing area of Shower Bases. Realizing that industry designs have not kept up with the needs of the Designer and Architect, Oceania has created the Infinité Collection with Shower Base designs to fit that need!

*Oceania Baths continues to surprise.* In addition to investing in order to make its processes and materials environmentally friendly in solid, quantifiable ways, the company from Thetford Mines, QC has developed new models that are pleasantly surprising in their design and their intelligence.

#### The Infinité Collection: Modern Design for the Modern Home

**Stainless Steel Shower Base:** Officially unveiled at the recent Annual Product Show for Plimpton & Hills in Hartford CT, the all new Stainless Steel Shower base stole the show. Contemporary in design with only a 2" threshold, the Infinité Stainless Steel Shower Base is an industry first. Currently available in a 60 x 36 inch, a 42 x 48 inch will be available shortly with additional sizes to follow. Made in North America in Quebec, the shower base utilizes grade 304 stainless steel in 16 gauge. Pre-levelled at the factory, the Infinité shower base is an easy installation requiring no additional support underneath or grouting.

***Cutting Edge Design with a Cutting Edge Look: Perfect for the Modern Bath.***

#### The Difference Exists in the Intelligence

Along with this beautiful new Shower Base, Oceania also offers a variety of acrylic sizes in the Infinité Collection. Utilizing the low profile 2" threshold for these contemporary designs, all their shower bases can be ordered as single, double or triple thresholds.

Recognized for the bold elegance of its product, Oceania continues to redefine hygienic standards, comfort and design.

Oceania Baths designs, manufactures and distributes state-of-the-art baths and shower products. Having developed Extreme Hygiene™, Self-Draining/Drying™, AeroMassage™ and Super AeroMassage™ patented systems; the company primarily distributes its products to Quebec, Canada and the United States. Its activities are focused in its two plants located in Thetford Mines and Trois-Pistoles, QC.
